Subject: Re: Seven Hills

We are glad to host Dec.6th. We would prefer to start as early as possible that day, say 8 am eastern. We are mostly open the following week and I suggest we discuss when and where for that meeting when we meet on the 6th.

Hi everyone,

As you are aware, Peabody has reached out to EPA after receiving letters from the Corps regarding an EIS on the proposed Seven Hills Mine.

Prior to meeting with Peabody, we think a meeting with the federal agencies would be helpful.

Wendy and I are available to meet in Bloomington Dec 6th in the morning. We would drive down the night before and head back to Chicago that evening.

I know holiday schedules fill quickly, but we could be available to meet with Peabody the following week Dec 12-16th. We would only consider that meeting if it works for the everyone. Also we recommend that the coordination with Peabody is done by the Corps as they are the federal agency whom is making the permit decision. We are willing to host that meeting in person or we could be available via video/teleconference.

Let us know if a meeting the morning of Dec 6th work and times that work, also possible dates for a federal agency meeting with Peabody.

Thanks,

Andrea
